

# Multiple Listing Service

Powered by PLS Inc.

## First in the Industry

In 1987, PLS became the first listing service to specifically cater to the oil & gas industry in 1987.

## Constantly Updating

PLS ensures content is fresh every day. This requires detailed cross-referencing of all public forums, in addition to honoring frequent update requests from our subscribers who submit deals privately.

## Easy Searching

With the click of a button, subscribers can access a customizable list of asset types based upon their own unique personal acquisition criteria.

## No Commissions

While certainly a key benefit to our Seller clients, Buyers can proceed confidently in knowing PLS will not factor any fees into a given asking price.

## Broad Range of Asset Types

Whether you are seeking producing or non-producing assets, operated or non-operated, one well or one thousand wells, PLS displays the full spectrum of the market within our Multiple Listings Service.

## Asset Types Found in PLS:

- Producing Properties
- Overriding Royalty Interests
- Drilling Prospects
- Workovers & Recompletions
- Acreage Deals
- Minerals For Sale
- Rigs & Equipment
- Midstream Assets
- Corporate Sales

## A World of Opportunity

PLS links GIS coordinates to each listing to provide clients with a clear vision of what the oil and gas transaction environment has to offer.

## Serving Buyers

PLS clients have access to all public and private opportunities within the Multiple Listing Service and can bookmark preferred listings to receive updates.

## Serving Sellers

Clients are able to post as many deals as they may have over the course of a year and pay no commissions in the event of a successful sale.
